Covid-19 School Response Plan

All schools will need to have a Covid-19 Response Plan in place in order to reopen safely in the new school year.

This document has been prepared on the basis of current public health advice and will continue to be updated throughout the year as further public advice is received.

Introduction

This *Covid-19 Response Plan* is designed to support the staff and Board of Management (BOM) in putting measures in place that will prevent the spread of Covid-19 in St Patrick's NS, Crowenstown.

The Covid-19 Response Plan details the policies and practices necessary for a school to meet the Government's '*Return to Work Safely Protocol*', the Department of Education and Skills plan for school reopening and to prevent the spread of Covid-19 in the school environment. The plan incorporates current advice about measures to reduce the spread of Covid-19 in the community issued by the National Public Health Emergency Team (NPHE).

It is important that the resumption of school based teaching and learning and the reopening of school facilities comply with the protocol to minimise the risk to students, staff and others. As the advice issued by NPHE continues to evolve, this protocol and the measures management and staff need to address may also change.

The response plan will support the sustainable reopening of our school where the overriding objective is to protect the health of staff and pupils while promoting the educational and development needs of the children in the school.

In line with the Return to Work Safely Protocol, the key to a safe and continued return to work, and re-opening of our schools requires strong communication and a shared collaborative approach between the Board of management, staff, pupils and parents.

This document aims to provide details of:

1. **COVID-19 School Policy**
2. **Planning and Preparing for Return to School**
 - **School Building**
 - **Signage**
 - **Making changes to school layout**
 - **Procedure for Returning to Work (RTW)**
 - **Return to work safely and Lead Worker Representative(s)**
3. **Safety Statement and Risk Assessment**
4. **General advice to prevent the spread of the virus**
5. **Managing the Risk of Spread of Covid-19**
 - a. **Wash your Hands Frequently**
 - b. **Hand Hygiene and Hand Sanitiser**
 - c. **Avoid Touching your Eyes, Nose and Mouth**
 - d. **Physical Distancing**
 - e. **Practice Respiratory Hygiene**
 - f. **Do**
 - g. **Do Not**
 - h. **People at Very High Risk (Extremely Vulnerable)**
6. **Control Measures**
 - a. **Return to Work Form**
 - b. **Induction Training**
 - c. **Hygiene and Respiratory Etiquette**
 - d. **Personal Protective Equipment (PPE)**
 - e. **Cleaning**
 - f. **Access to the School Building / Contact Log**
 - g. **First Aid / Emergency Procedure**
7. **Dealing with a suspected case of Covid-19**
8. **Special Educational Needs**
9. **Staff Duties**
10. **Covid related absence management**
11. **Employee Assistance and Wellbeing Programme**

The assistance and cooperation of all staff, pupils, parents/guardians, contractors and visitors is critical to the success of the plan.

Every effort is made to ensure the accuracy of the information provided in this document. However, should errors or omissions be identified, please notify us so that appropriate measures can be taken to rectify same.

Note: The plan is a live working document and may be reviewed and amended to take into account new guidance from www.Gov.ie, www.dbei.ie, www.hse.ie, www.hpsc.ie, www.hsa.ie; www.education.ie;

1. COVID-19 School Policy

This COVID-19 policy outlines our commitment as a school to implement the plan and help prevent the spread of the virus. Our School Covid-19 Policy Statement is attached at **Appendix 1** to this Policy and was ratified at our Board of Management meeting on August 17th 2020. It is available to view on our school website and is on display at our office door.

2. Planning and Preparing for Return to School

The Board of Management aims to facilitate the resumption of school based teaching and learning and the return to the workplace of staff. The return to the work must be done safely and in strict adherence to the advice and instructions of public health authorities and the Government.

Details for the reopening of the school facility and the applicable controls are outlined in this document.

School Buildings

Before re-opening schools in the new school year schools are reminded to check the following:

- Does the water system need flushing at outlets following low usage to prevent Legionella disease;
- Have bin collections and other essential services resumed
- Wall mounted soap dispensers have been installed in all sink areas.
- Wall mounted sanitizer stations have been placed at the entrance and exit of all internal doors.

Signage

There are posters and signage clearly displayed throughout the St Patrick's National School to act as reminders to maintain a social distance of 2m, exercise good coughing etiquette and practise good hand hygiene.

Making Changes to School Layout

Maintaining physical distancing in the school environment is recommended as one of the key control measures to minimize the risk of the introduction and spread of COVID-19.

Excess furniture and 'clutter' has been removed from classrooms, which have been reconfigured to support physical distancing in line with the guidance in advance of school reopening.

Procedure for Returning to Work (RTW)

In order to return to the workplace, staff must complete a **Return to Work (School) [RTW(s)]** form, which is available by email from the Principal.

A RTW form should only be completed **at least 3 days** prior to any proposed date of return to the workplace.

On receipt of the completed form the Principal will provide: details of the **Induction Training** for completion by staff prior to the return to the workplace and details of any additional health and safety measures in place in the school to facilitate the staff member's return to the school facility.

Return to work safely and Lead Worker Representative

Responsibility for the development and implementation of the Covid-19 Response Plan and the associated control measures lies primarily with the Board of Management and the School Leadership.

The Return to Work Safely protocol provides for an agreed procedure between management and staff to appoint a Lead Worker Representative to carry out a specific role.

The role of the worker representative is to ensure that Covid-19 measures are adhered to in the workplace as follows;

- Work collaboratively with the employer to ensure, so far as is reasonably practicable, the safety, health and welfare of employees in relation to COVID-19.
- Promote good hygiene practices such as washing hands regularly and maintaining good respiratory etiquette along with maintaining social distancing in accordance with public health advice.
- Assist with the implementation of measures to suppress COVID-19 in the workplace.
- Monitor adherence to measures put in place to prevent the spread of COVID-19.
- Consult with colleagues on matters relating to COVID-19 in the workplace.
- Make representations on behalf of their colleagues on matters relating to COVID-19 in the workplace.

If a staff member has any concerns or observations in relation to the Covid-19 Response Plan and control measures or the adherence to such control measures by staff, parents/guardians, contractors or visitors, he/she should contact the lead worker who will engage with the Principal/BOM.

Name(s) of Lead Worker representative:	Contact details
Neasa Ní Mhairtín	St Patrick's National School, Crowenstown

All staff, parents/guardians, contractors and visitors have a responsibility both as individuals and collectively to have due regard for their own health and safety and that of others and to assist with the implementation of the Covid-19 Response Plan and associated control measures.

3.Safety Statement and Risk Assessment

COVID-19 represents a hazard in the context of health and safety in the school environment. IPPN has commissioned an independent Policy Statement and Risk Assessment to identify the control measures required to mitigate the risk of COVID-19 in school settings.

St Patrick's National School has completed a full risk assessment commissioned by the IPPN and continues to monitor the areas of risk noted. **(see Appendix 2)**

St Patrick's National School will review its emergency procedures involving, fire safety, first aid, accidents and dangerous occurrences to consider any new risks that arise due to the COVID-19 School Response Plan and will document any changes there in.

4. General advice to prevent the spread of the virus

In order to prevent the spread of COVID-19 it is important to know and recognise the symptoms. They are:

- High temperature
- Cough
- Shortness of breath or breathing difficulties
- Loss of smell, of taste or distortion of taste

The best way to prevent the spread of COVID-19 in a school is to minimise the risk of introduction of the disease into the school setting in the first place.

This can be achieved through the following measures:

- Promote awareness of COVID-19 and its symptoms amongst staff, pupils, parents and visitors.
- Advise staff and parents of pupils who have symptoms of COVID-19 or other acute infectious diseases not to attend school, to phone their GP and follow the HSE guidance on self-isolation.
- Advise staff and parents of pupils who have been identified by the HSE as contact of a person with COVID-19 not to attend schools and to follow the HSE advice on restriction of movement.
- Ensure that staff and pupils know what to do if they develop symptoms at school.
- Everyone entering the school building should be required to perform hand hygiene with hand sanitiser.
- Visitors to school during the day should be by prior arrangement and should be received at a specific contact point.

Staff, pupils and visitors should at all times adhere to the up to date advice and instructions of the public health authorities in relation to protecting oneself and others against the risk posed by the Covid-19 virus.

Updated advice from the HSE is available on its website – <https://www2.hse.ie/coronavirus/>

The Department of Education and Skills will ensure all updated advice is circulated to schools. St Patrick's National School will arrange for this advice to be circulated to staff, pupils and parents in a timely manner via text a parent and email.

5. Managing the risk of spread of COVID-19

a. Wash your Hands Frequently

Regular hand washing with soap and water is effective for the removal of COVID-19.

Follow the HSE guidelines on handwashing:

For advice from HSE on how to wash your hands the following link will be helpful:

<https://www2.hse.ie/wellbeing/how-to-wash-your-hands.html>

b. Hand Hygiene and Hand Sanitisers

Hand hygiene can also be achieved by the use of a hand sanitisers (when hands are clean).

Hand sanitisers will be available at entry and exit points and in each classroom.

c. Avoid Touching Eyes, Nose and Mouth

Why? Hands touch many surfaces and can pick up viruses. Once contaminated, hands can transfer the virus to your eyes, nose or mouth.

d. Physical Distancing

Physical distancing is recommended to reduce the spread of infection in the workplace. The Junior room will be seated in a Junior Infant pod, 1st Class pod and 2nd Class pod. The children in the Senior Room will be encouraged to practise social distancing and all children in these classes will be seated 1m apart where possible and designated to a POD for group activities. Both the Junior and Senior rooms will be classified as 'Bubbles' and will operate as such for the remainder of the year. Class bubbles will not mix or gather together at any time.

e. Practice respiratory hygiene

Make sure you, and the people around you, follow good respiratory hygiene. This means covering your mouth and nose with a tissue or your bent elbow when you cough or sneeze. Then dispose of the used tissue immediately.

By following good respiratory hygiene, you protect the people around you from viruses such as cold, flu and Covid-19.

Good hygiene practices and washing your hands properly and regularly can help stop the spread of the virus. It is, therefore, crucial that all staff adhere to this advice and adopt the following practices as strictly as possible.

f. Do

- Wash your hands properly and often
- Cover your mouth and nose with a tissue or your sleeve when you cough and sneeze
- Put used tissues into a bin and wash your hands
- Clean and disinfect frequently touched objects and surfaces

g. Do Not

- Touch your eyes, nose or mouth if your hands are not clean
- Share objects that touch your mouth – for example, bottles, cups, cutlery, etc.

h. People at Very High Risk (Extremely Vulnerable):

Current public health guidelines have identified groups who are defined as being at very high risk. The HSE has set out these groups, which include people who:

The list of people in very high risk groups include people who:

- are over 70 years of age - even if you're fit and well
- have had an organ transplant
- are undergoing active chemotherapy for cancer
- are having radical radiotherapy for lung cancer
- have cancers of the blood or bone marrow such as leukaemia, lymphoma or myeloma who are at any stage of treatment
- are having immunotherapy or other continuing antibody treatments for cancer
- are having other targeted cancer treatments which can affect the immune system, such as protein kinase inhibitors or PARP inhibitors
- have had bone marrow or stem cell transplants in the last 6 months, or who are still taking immunosuppression drugs
- severe respiratory conditions including cystic fibrosis, severe asthma, pulmonary fibrosis, lung fibrosis, interstitial lung disease and severe COPD
- have a condition that means you have a very high risk of getting infections (such as SCID, homozygous sickle cell)
- are taking medicine that makes you much more likely to get infections (such as high doses of steroids or immunosuppression therapies)
- have a serious heart condition and you are pregnant

The advice for this group is available from the HSE. Staff who are in this group should self-declare on the Return to Work form if they believe that they are at very high risk. Details of the leave arrangements that will apply will be updated by the Department of Education and Skills.

If the Board/Principal is unsure whether or not staff fall into the very high-risk category, advice will be sought from the Occupational Health Service.

6. Control Measures

A range of essential control measures have been implemented to reduce the risk of the spread of Covid-19 virus and to protect the safety, health and welfare of staff, pupils, parents/guardians and visitors as far as possible within the school.

These control measures are outlined in this document.

The control measures shall continue to be reviewed and updated as required on an ongoing basis.

It is critical that staff, pupils, parents/guardians and visitors are aware of, and adhere to, the control measures outlined and that they fully cooperate with all health and safety requirements.

Staff, in particular, should note that they have a legal obligation under Section 13 of the Safety, Health and Welfare at Work Act 2005 to comply with health and safety requirements and to take reasonable care for the health and safety of themselves, their colleagues and other parties within the workplace.

The following control measures have been put in place:

a. Return to Work Form

Staff will be required to complete a RTW form at least 3 days prior to any return to the school facility (see section 2 above). The purpose of the RTW form is to get confirmation from staff that, to the best of his/her knowledge, he/she has no symptoms of Covid-19 and is not self-isolating or cocooning or awaiting the results of a Covid-19 test.

b. Induction Training

All staff will undertake and complete Covid-19 Induction Training prior to returning to the school building. The aim of such training is to ensure that staff have full knowledge and understanding of the following:

- Latest up to-date advice and guidance on public health
- Covid-19 symptoms
- What to do if a staff member or pupil develops symptoms of Covid-19 while at school
- Outline of the Covid-19 response plan

Staff will be kept fully informed of the control measures in place in the school and their duties and responsibilities in preventing the spread of Covid-19 and with any changes to the control measures or guidance available from the public health authorities.

If a staff member is unsure about any aspect of the Covid-19 Response Plan, the associated control measures, or her duties, she should immediately seek guidance from the Principal.

c. Hygiene and Respiratory Etiquette

It is crucial that all staff, pupils, parents/guardians, contractors and visitors are familiar with, and adopt, good hand and respiratory hygiene practices.

Guidance documentation and Information posters will be available at various locations within the school facility. Information posters will be prominently displayed at appropriate locations within the school to inform but also remind everyone about the importance of hygiene in preventing the spread of Covid-19 virus and protecting health and safety.

Hand sanitisers are available at multiple locations within the school and will be available in each classroom.

Frequency of Hand Hygiene

Pupils and staff should perform hand hygiene:

- On arrival at school;
- Before eating or drinking;
- After using the toilet;
- After playing outdoors;
- When their hands are physically dirty;
- When they cough or sneeze.

d. Use of Personal Protective Equipment (PPE)

PPE will not be required to be worn within schools according to current occupational and public health guidance. However, for a limited number of staff, PPE will need to be used occasionally or constantly due to the nature of certain work activities or work areas. This might include roles such as:

- Assisting with intimate care needs
- Where a suspected case of COVID-19 is identified while the school is in operation
- Where staff are particularly vulnerable to infection but are not on the list of those categorised as people in very high risk groups, or may be living with those who are in the very high risk category.

Appropriate PPE will be available for dealing with suspected COVID-19 cases, intimate care needs and for first aid. Where staff provide healthcare to children with medical needs in the school environment they should apply standard precautions as per usual practice.

Masks

Cloth face coverings are not suitable for children under the age of 13 and anyone who:

- Has trouble breathing;
- Is unconscious or incapacitated;
- Is unable to remove it without help;
- Has special needs to who may feel upset or very uncomfortable wearing the face covering.

For staff, face coverings should not be required if physical distancing is possible and practiced appropriately. Wearing a face covering will conceal facial expression and make communication difficult. However, if a 2m distance cannot be maintained staff should wear a face mask or visor. Masks and visors will be made available to staff.

The use of a visor as an alternative may be considered where there is a concern regarding prolonged close contact and exposure to fluid/respiratory droplets.

Gloves

The use of disposable gloves in the school by pupils or staff is not generally appropriate but may be necessary for intimate care settings. Routine use does not protect the wearer and may expose others to risk from contaminated gloves.

Routine use of disposable gloves is not a substitute for hand hygiene.

e. *Cleaning*

Arrangements for more regular and thorough cleaning of areas and surfaces within the school will be made.

Regular and thorough cleaning of communal areas and frequently touched surfaces shall be conducted, in particular, toilets, lifts, door handles and kitchens. Cleaning will be performed regularly and whenever facilities or surfaces are visibly dirty.

The Cleaners will follow the agreed Cleaning Checklist and will keep a record of Cleaning duties and hours worked.

All staff will have access to cleaning products and will be required to maintain cleanliness of their own work area. Under no circumstances should these cleaning materials be removed from the building.

Staff should thoroughly clean and disinfect their work area before and after use each day.

There will be regular collection of used waste disposal bags from offices and other areas within the school facility.

f. *Access to the school building /contact log*

Access to the school facility will be in line with agreed school procedures.

Arrangement for necessary visitors such as contractors and parents/guardians will be restricted to essential purposes and limited to those who have obtained prior approval from the Principal.

The prompt identification and isolation of potentially infectious individuals is a crucial step in restricting the spread of the virus and protecting the health and safety of the individuals themselves and other staff, contractors and visitors at the workplace. A detailed sign in/sign out log of those entering the school facilities will be maintained. The school will maintain a log of staff and students contacts also.

g. *First Aid/emergency procedure*

The standard First Aid/Emergency procedure shall continue to apply in St Patrick's National School.

In an emergency or in case of a serious incident, call for an ambulance or the fire brigade on 112/999

Contact the principal or nearest first aider giving details of location and type of medical incident.

7. Dealing with a suspected case of Covid-19

Staff or pupils should not attend school if displaying any symptoms of Covid-19. The following outlines how St Patrick's National School will deal with a suspected case that may arise during the course of work.

A designated isolation area should be identified within the school building. Our designated isolation area is in our SEN room behind a door and beside a window. If more than one person displays signs of Covid-19 they will be put in another part of our SEN room seated more than 2m away from the first isolation area.

If a staff member/pupil displays symptoms of Covid-19 while at work in St Patrick's National School the following are the procedures to be implemented:

- If the person with the suspected case is a pupil, the parents/guardians should be contacted immediately
- Isolate the person and have a procedure in place to accompany the individual to the designated isolation area via the isolation route, keeping at least 2 metres away from the symptomatic person and also making sure that others maintain a distance of at least 2 metres from the symptomatic person at all times
- Provide a mask for the person presenting with symptoms if one is available. He/she should wear the mask

if in a common area with other people or while exiting the premises

- Assess whether the individual who is displaying symptoms can immediately be directed to go home/be brought home by parents and call their doctor and continue self-isolation at home
- Facilitate the person presenting with symptoms remaining in isolation if they cannot immediately go home and facilitate them calling their doctor. The individual should avoid touching people, surfaces and objects. Advice should be given to the person presenting with symptoms to cover their mouth and nose with the disposable tissue provided when they cough or sneeze and put the tissue in the waste bag provided
- If the person is well enough to go home, arrange for them to be transported home by a family member, as soon as possible and advise them to inform their general practitioner by phone of their symptoms. Public transport of any kind should not be used
- If they are too unwell to go home or advice is required, contact 999 or 112 and inform them that the sick person is a Covid-19 suspect.
- Carry out an assessment of the incident which will form part of determining follow-up actions and recovery
- Arrange for appropriate cleaning of the isolation area and work areas involved.

The HSE will inform any staff/parents who have come into close contact with a diagnosed case via the contact tracing process. The HSE will contact all relevant persons where a diagnosis of COVID-19 is made. The instructions of the HSE should be followed and staff confidentiality is essential at all times.

8. Special Educational Needs

Additional considerations for those with Special Educational Needs

For children with special educational needs (SEN) maintaining physical distancing in many instances will not be practical or appropriate to implement. The focus should therefore be on emphasising that parents/guardians should have a heightened awareness of signs, symptoms or changes in baseline which suggests illness/COVID-19 infection and where symptoms are present children should not attend school.

Similarly, staff should be aware of their responsibility not to attend work if they develop signs or symptoms of respiratory illness.

Hand hygiene

Children who are unable to wash their hands by themselves should be assisted to clean their hands using soap and water or a hand sanitiser (if their hands are visibly clean) as outlined previously.

9 . Staff Duties

Staff have a statutory obligation to take reasonable care for their own health and safety and that of their colleagues and other parties. In order to facilitate a safe return to work, these duties include, but are not limited to, the following:

- Adhere to the School Covid-19 Response Plan and the control measures outlined. The cooperation and assistance of all staff is essential to reduce the risk of spread of Covid-19 and to protect health and safety as far as possible within the school. All staff have a key role to play
- Coordinate and work with their colleagues to ensure that physical distancing is maintained
- Make themselves aware of the symptoms of Covid-19 and monitor their own wellbeing
- Self-isolate and contact their GP promptly for further advice if they display any symptoms of Covid-19
- Not return or attend school if they have symptoms of Covid-19 under any circumstances.
- If they develop any symptoms of Covid-19 whilst within the school facility, they should adhere to the procedure outlined above

- Complete the RTW form before they return to work
- Must inform the Principal if there are any other circumstances relating to Covid-19, not included in the form, which may need to be disclosed to facilitate their safe return to the workplace
- Must complete Covid-19 Induction Training and any other training required prior to their return to school
- Must be aware of, and adhere to, good hygiene and respiratory etiquette practices
- Keep informed of the updated advice of the public health authorities and comply with same.

10. Absence management and Covid related absence management

When a child returns to the school following any absence they will fill in the Return to Educational Facility Parental Declaration Form. (Appendix 3)

The management of a Covid-19 related absence will be managed in line with agreed procedures with DES.

11. Employee Assistance and Wellbeing Programme

The Board of Management aims to protect and support the health and wellbeing of all staff (physical, mental, spiritual etc.) both at work, whether in the school facility or at home and outside of work. The Board of Management is mindful that the support and promotion of staff health and wellbeing is particularly important in the current context where the Covid-19 pandemic has caused considerable challenges for, and disruption to, people's personal, family and social lives as well as their work arrangements.

The Board of Management aims to foster a culture and work environment that support healthy behaviours and staff wellbeing and shall continue to make health and wellbeing tools and guidance available to staff.

These are challenging times for everyone. Should a staff member experience any stress or anxiety in respect of work or work arrangements, he/she should feel free to speak to the principal.

The Department recognises the need for school staff wellbeing and collective self-care. Support for school staff wellbeing will be provided by Department Support Services including the PDST and CSL, as well as by the HSE's Health Promotion Team. An Occupational Health Strategy is in place as a supportive resource for staff in schools. The aim of the Occupational Health Strategy is to promote the health and wellbeing of employees in the workplace, with a strong focus on prevention. The Occupational Health Strategy comprises the Employee Assistance Service and the Occupational Health Service. The Employee Assistance Service (EAS) is provided by Spectrum.Life under the logo of 'Wellbeing Together: Folláinne Le Chéile'.

Under the EAS, employees have a dedicated free-phone confidential helpline 1800 411 057 available 24 hours a day, 365 days a year providing advice on a range of issues such as wellbeing, legal, financial, mediation, management support etc. Where required, short-term counselling is available to employees and their families (over the age of 18 years and living at home). A bespoke wellbeing portal and app which offers access to podcasts and blogs on topics around wellbeing and mental health, family life, exercise and nutrition is also available. In addition, online cognitive behavioural therapy is provided. As part of the services provided by Spectrum.Life a Mental Health Promotion Manager is available to develop and deliver evidence based mental health and wellbeing initiatives to reduce stigma and improve mental health literacy and to increase engagement with the service. They will also be providing a series of webinars and presentations to promote staff wellbeing in schools as schools reopen and during the upcoming school year.

This School Response Plan was formulated in August 2020, using the Department of Education Response Plan and Roadmap documents to inform it. The Plan outlines the procedures necessary for a safe return to school in response to the Covid-19 Pandemic.

Appendix 1 : Covid 19 Policy Statement

St. Patrick's N.S is committed to providing a safe and healthy workplace for all in our school community. To ensure that, we have developed the following COVID-19 Response Plan. The BOM and all school staff are responsible for the implementation of this plan and a combined effort will help contain the spread of the virus.

We will:

- continue to monitor our COVID-19 response and amend this plan in consultation with our staff
- provide up to date information to our staff and pupils on the Public Health advice issued by the HSE and Gov.ie
- display information on the signs and symptoms of COVID-19 and correct handwashing techniques
- agree with staff, a worker representative who is easily identifiable to carry out the role outlined in this plan
- inform all staff and pupils of essential hygiene and respiratory etiquette and physical distancing requirements
- adapt the school to facilitate physical distancing as appropriate in line with the guidance and direction of the Department of Education
- keep a contact log to help with contact tracing
- ensure staff engage with the induction / familiarisation briefing provided by the Department of Education
- implement the agreed procedures to be followed in the event of someone showing symptoms of COVID-19 while at school
- provide instructions for staff and pupils to follow if they develop signs and symptoms of COVID-19 during school time
- implement cleaning in line with Department of Education advice

All school staff will be consulted on an ongoing basis and feedback is encouraged on any concerns, issues or suggestions.

This can be done through the Lead Worker Representative(s), who will be supported in line with the agreement between the Department and education partners.
